

Liveable Neighbourhoods

Liveable Neighbourhoods are accessible and healthy places that allow people of all ages and abilities, to play and socialise outdoors in their local area, as well as making walking, cycling and public transport the first choice.

We would be delighted if you were able to join us at a drop in event on the 13th October 2022 to discuss the ideas which have been developed following the community workshops held last winter. The workshops were held in Carntyne, Haghill, Riddrie, Cranhill, and Dennistoun together with a focused workshop held at Smythcroft Secondary School in the Summer.

The event will be informal, and light refreshments (teas and coffees) will be provided. This will provide an opportunity for the various communities to view the projects which are being developed to a more detailed stage and comment.

The event has been organised as follows:

**Thursday 13th October 10.00am to 4.00pm -
Reidvale Centre, 13 Whitevale St,
Glasgow G31 1QW**

For further information please contact Chris at c.stewart@collectivearchitecture.co.uk

If you can join us, it would be helpful to please let Chris know however everyone is also very welcome to drop in on the day.
