Quotes from Projects

Many of the volunteers have **grown in confidence** to bring their own ideas to life, to co-lead on workshops, sessions or events.

We are extremely proud of our project staff who worked tirelessly to **support those who needed it most** and overcome challenges and provided new opportunities.

Thank you to Glasgow City Council for making the project possible, your core funding is what **offered firm foundations** to build from.

Whilst we have never had to turn anyone away, we do worry about **demand outstripping resources**.

2,314

On average, each project engaged with 2,314 people during 2021 / 2022.
