Letter of Support for Hillwood Community Trust

On behalf of Glasgow Life and Glasgow City Council, I write in full support of Hillwood Community Trust's funding application, which would allow the club to design and develop their own Community Sports Hub pavilion accommodation in the south west of Glasgow.

It is recognised that the project will contribute positively towards the cities policy initiative of the development of Community Sports Hubs across the city. The new development would work alongside other facilities in the area and seek to ensure a co-ordinated approach to the delivery of opportunities in the local area in conjunction with other providers.

The club has over the years developed a strong presence, providing the opportunity for young people to become involved in physical activity, particularly through the promotion of football. The development of the new pavilion will enhance the facilities already available and will allow the Trust to deliver a wider range of sport, leisure and recreational activity.

Glasgow Life and Glasgow City Council therefore strongly supports the Hillwood Community Trust application. We do so not only as a key partner in the delivery of sport and physical activity within the city, but also due to Glasgow's long term commitment to significantly improve public health in Glasgow.

Yours sincerely
