

SKIP PERMIT – CONDITIONS

Roads (Scotland) Act 1984, Section 85 and 86 (Road Traffic Regulation Act 1984, Section 65) As Amended by the Builders' Skips (Markings) / (Scotland) Regulations 1986

- 1) Bulk containers (skips) for use on the public road for the disposal of building materials, rubbish or other things shall comply with the appropriate Motor Vehicles Construction and Use Regulations when carried on a vehicle.
- 2) Each skip shall be positioned so that its longer sides are parallel to the edge of the carriageway and as near to the edge of the carriageway as is reasonably practicable so that it does not impede the surface water drainage of the road or obstruct access to any manhole or the apparatus of any Statutory Undertaker or Glasgow City Council.
- 3) Where more than one skip is on the public road at any one time, the skips shall be positioned as closely as possible to each other, but not so as to obstruct access to any premises, unless the consent of the occupier of those premises has been obtained.
- 4) Each skip or group of skips shall while on the public road be marked (guarded) and lit in accordance with the requirements of Chapter 8 of the Traffic Signs Manual.
- 5) Builders' skips placed or deposited on the road must be fitted with vertical red and yellow fluorescent/reflective markings identical to those prescribed for use on the rear of heavy goods vehicles. The design of the skip markings shall comply with the Builders' Skips (Markings) (Scotland) Regulations 1986 which supersedes in part the requirements of Chapter 8 of the Traffic Signs Manual referred to above.
- 6) No skip when standing on the public road shall contain any inflammable, explosive, noxious or dangerous material or any material which is likely to putrefy or which otherwise is, or is likely to become, a nuisance to users of the public road.
- 7) No skip shall be used in such a way that any of its contents fall on to the public road, or that there is an escape of dust from the contents of the skip when standing on the public road.
- 8) Each skip shall be removed for emptying as soon as practicable and no later than two working days after it has been filled.
- 9) Any skip remaining on the public road after the period of this permission has expired will be liable to receive a Fixed Penalty Notice (FPN).
- 10) All materials placed in the skip(s) shall be properly disposed of and the public road where the skip or skips have been deposited shall be left in a clean and tidy condition on the expiration of the permission.
- 11) The skip shall be clearly and permanently marked with the owner's name and telephone number or address.
- 12) The permit shall be shown, on demand, to any Police Officer or official of Glasgow City Council.

Note

Section 85(2) of the Roads (Scotland) Act 1984 empowers the local roads authority to impose conditions on its permission relating in particular to the siting and lighting of the skip and the removal of the skip at the end of the period of the permission. Section 85(3) makes it an offence to use a skip in contravention of the Act.

Section 86 of the Roads (Scotland) Act 1984 empowers the local roads authority or a Police Officer to require the removal or repositioning or to remove or reposition a builders' skip deposited on a public road even though it was deposited in accordance with roads authority permission and after permission to recover from the owner the cost of such removal or repositioning, and to dispose of a skip which is not collected by its owner. Failure to comply with a request to remove or reposition a skip under the section may result in a roads authority removing or repositioning the skip and recovering any expenses reasonably incurred in so doing.
