Subject: RE: Request for a Public Hearing in relation to Asset Transfer application by North Kelvin Meadow and The Children's Wood
Date: 15 April 2020 12:09:32

Dear Sir/Madam,

My family and I have lived on Garrioch Road for over 18 years now and have seen and been part of the improvement of the North Kelvin Meadow-Childrens Wood. It is a vital space for the local community welcoming children and adults alike. Not only is it a place where children are free to wander and learn about nature but is also a place where the local community come together in a collective love for the land. Never more has this been in evidence than during this current Covid-19 crisis. Whilst we welcome the council's instruction to hand over asset management for a 25 year lease the inclusion of Clause no.5 undermines the very essence and ethos of the asset transfer process. I would like a Public Hearing to ensure that this clause is removed.

Yours faithfully
