Roads (Scotland) Act 1984

Security for Private Road Works (Scotland) Amendment Regulations 1998

Guidance notes for developers

In terms of Section 17 of the Roads (Scotland) Act, 1984 and the Security for Private Roadworks (Scotland) Amendment Regulations 1998 you, as a developer, are required to make financial provision with the Council, as Local Roads Authority in order to safeguard the completion of housing development roads which are the subject of a Construction Consent. Such provision, as required by the Regulations, may take the form of a Road Bond or deposit and this will serve to protect prospective house purchasers from having to bring incomplete roads up to adoptable standards.

You are unable to commence building works adjacent to any road permitted by a Construction Consent until you have met the requirements of the above regulations which came into effect on 1st April 1986.

In terms of Regulation 6, the security shall be an amount sufficient to meet the cost of constructing or completing the construction of the said roads. Also to calculate the amount of that security by objective estimating and negotiation.

In terms of Regulation 5, that security shall be either a bond in favour of this Council or a cash deposit of a sum equating to that security. Such bond or deposit shall be lodged with the Council at the office where your construction consent was issued.

In terms of Regulation 16, any person who carries out building works in contravention of these regulations shall be guilty of an offence. It would, therefore, be in your interests to make early contact with the Local Roads Authority, who will be able to advise you fully on these procedures. Copies of form CC7 should be completed and returned with the security. Copies of the regulations are also available for inspection at the office of the Local Roads Authority.
