**Subject:** Ibrox

Dear [REDACTED] as discussed, my opposition and concerns regarding the request by the rangers football club to use Ibrox community complex as a fanzone on multiple occasions for league ,Europe and cup games. I will list my concerns but firstly would suggest that permission to use is refused in the first instance. • this complex belongs to the community and was given to them as a trust. • no consultation has taken place in the community • elected members have not been informed/consulted • the pitch would never be used by our community again as it would always be on lease to rangers. • the pitch would be destroyed by thousands of fans on the pitch at the same time. • the pitch is taken from our children and handed over to a multi millionaire to make more millions . • local businesses would go to the wall, as the the big eat and other large companies drain their profits. • we cannot replace the healthy aspects of football with burgers and Booz. • why are Glasgow life even contemplating this, is it ok for poor areas. I will finish by commenting that, Glasgow life should mirror what we do as a council and not act to the deprement of our community and its health. [REDACTED]
